WE ARE TEAM

We offer the perfect equipment for all teams: Whether for sport, work or leisure. In the doctors' surgeries, in industrial companies or in agriculture. A uniform outfit strengthens team spirit.

JAKO

We are experts in equipping teams and have always focused on our customers. Individual support and comprehensive, personal service are important to us. In addition, we have developed digital solutions to be the perfect partner for all aspects of team equipment.

PERSONAL

Thanks to our broad network of specialist retailers, we guarantee personal support, qualified advice and comprehensive service on site.

RUNNING TIMES

We offer planning security. The long product lifetimes of our articles enable long-term availability of uniform team equipment. This saves time and money, as new team members can also reorder the existing team collection quickly and easily.

DIGITAL

We offer digital solutions for fast and efficient order processing. With our JAKO Teamshops you have a personal online webshop with your individual collection. Every team member can easily order their articles here. We are setting new standards for team orders.

FAST, RELIABLE & AVAILABLE

Our aim is to dispatch all orders within 24 hours of receipt, which we can guarantee thanks to our fully automated AutoStore® warehouse system. At least 95% of our articles are stored in the JAKO logistics center at all times - this guarantees the constant availability of our products.

FLEXIBLE & INDIVIDUAL

We always have the perfect solution. We produce special make ups, whether it's your own colour or a special design, exactly according to your wishes. We also fulfill individual requests in terms of logistics and offer additional services, such as specific product labeling, shipping in custom boxes, or our repair service.

TEAMLINES

ORGANIC

- Cotton from controlled organic cultivation
- Combed ring-spun cotton fibers
- Very long durability due to reinforced seams

DOUBLETEX

- Exclusively developed and highly functional JAKO material mix
- Designed specifically for top performance at work and in leisure time
- Innovative VORTEX® yarn technology
- Reinforced seams for high durability and dimensional stability
- Certified with the “Tested Workwear” quality label from Hohenstein
- Suitable for professional textile laundering according to DIN EN ISO 15797

Hohenstein tests our Teamline DOUBLETEx for the following properties:

Colour fastness such as light, perspiration, rub and wash fastness and with strong heat development

Physical properties such as seam and tear strength, elasticity and pilling

Optical properties such as dimensional stability, twisting of the seams and the appearance after numerous intensive washes

OUR STANDARDS

QUALITY AND SAFETY

We concentrate on **selected key suppliers** with whom we maintain on a long-term partnership. In addition, we defined our **own standards for textile-physical tests** such as washing behavior, tear resistance, colour fastness, elasticity or

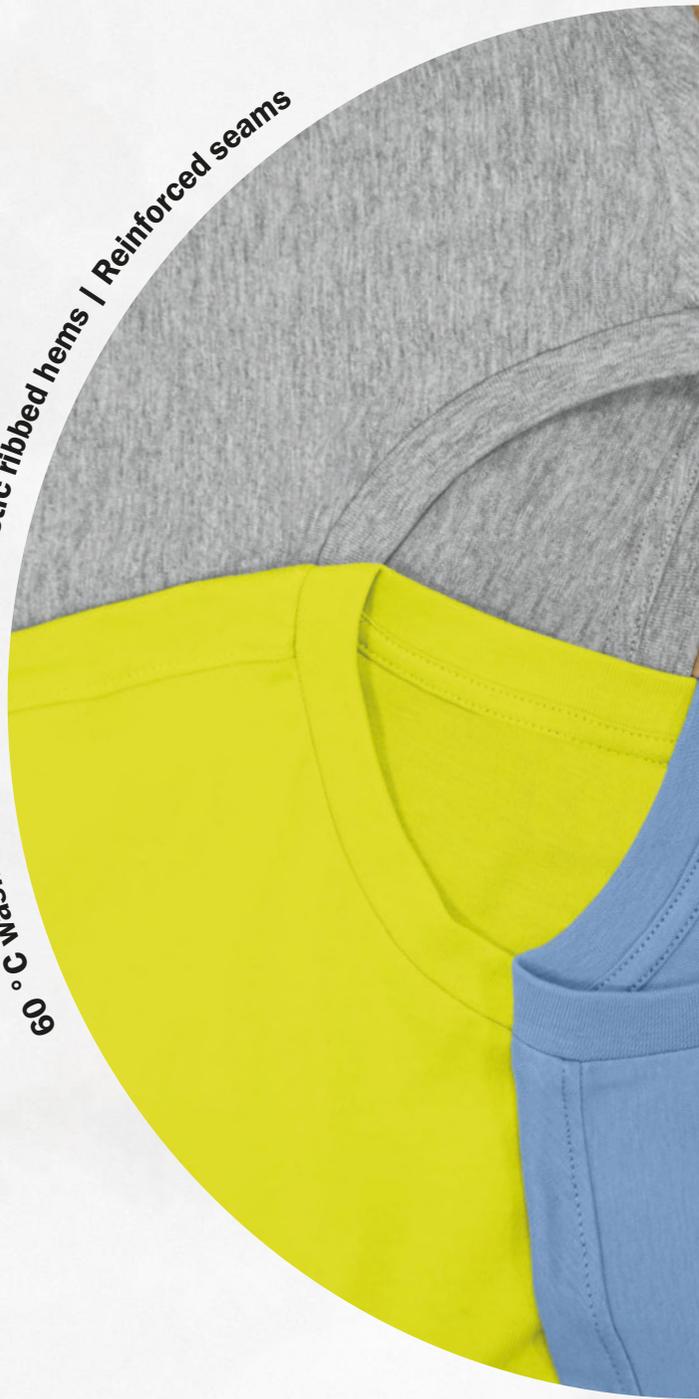

abrasion resistance. These are monitored by **independent test laboratories** during development and production. This is how we guarantee **high durability** and a **long service life**.

MATERIAL PROPERTIES

The articles of the Corporate Teamwear have the following properties:

- 60 °C washable
- Pre-shrunk
- Elastic ribbed hems
- Reinforced seams
- Flag label on the side seam
- Size label in neck
- Dimensional stable and colourfast
- High quality accessories

60 °C washable | Pre-shrunk | Elastic ribbed hems | Reinforced seams

Flag label on the side seam | Size label in neck | Dimensional stable and colourfast | High quality accessories

COLOURS

We have the **suitable colour for every team**. A large selection of colours and an optimal colour concept ensure a uniform appearance. The high quality of the dyes we use **guarantees intense colours** and **colour fastness** even after heavy use and numerous washes.

MATERIALS

We stand for **high quality teamwear**. **Natural fibers, functional polyester, innovative fiber blends** or **waterproof** and **breathable fabrics** for our jackets. We have the suitable material.

FIT

Our teamwear **fits and holds its shape**. We check our articles multiple times for optical properties such as dimensional stability and seam behaviour. This is how we **guarantee** an **optimal fit** as well as a **stable seam processing** and **dimensional stability**.

STANDARDS

We place **high demands** on our products and suppliers. The specifications of **dimensional stability, colour management, material properties** and **product safety** must be met with every delivery. We **check this on site** at the supplier and when the goods arrive **at our warehouse**.

SIZES

Our articles are available from **S - 5XL** and in numerous styles for women from **34 - 48**. The core articles are also available for children in **116 - 164**. A **classic cut** for men, a **tapered cut for women** or **plus sizes** as well as **short and long sizes** - we have the right articles for all team members.

PROCESSING

We pay attention to first-class workmanship and stand for durability and a high quality standard. We ensure this, for example, with **reinforced shoulder seams, double seams** in the hem and cuffs or through **high quality accessories**.

OUR COLLECTION
WITH CERTIFIED MATERIALS

THE KEY

Together with seven partners from research and industry, we are working on a recycling solution for textiles as part of the “TheKey” project. This pioneering project for the recyclability of the textile industry is funded by the Federal Ministry of Research, Technology, and Space (BMFTR). The aim is to completely recycle polyester/cotton blended fabrics through various key innovations in order to enable the sustainable use of these materials.

As part of the project, we launched an international collection campaign in 2025, in which over 1000 sports clubs participated and sent in their old jerseys. The textiles were sorted and temporarily stored at our facility before being recycled and processed into new sports textiles in the next step. True to the motto: “Reuse, recycle, repeat.”

Discover more about sustainability at JAKO!

ORGANIC COTTON

At JAKO, more than 80% of cotton products are made from organic cotton.

Organic cotton is grown without the use of chemical pesticides, synthetic fertilizers, or genetically modified seeds. The cultivation of organic cotton produces approximately 45% less CO₂ emissions than the cultivation of conventional cotton.

Source: Textile Exchange (2014) - The Life Cycle Assessment of organic cotton fibre - a global average

RECYCLED POLYESTER

In the case of recycled polyester (rPET), existing material is processed and turned into new granulate. Compared to the production of polyester from primary raw materials (virgin PET), this process requires around 45-70% less energy.

This range is based on several independent life cycle assessment studies and expert sources that compare the energy consumption of recycled PET or recycled polyester with new material. The actual savings vary depending on the recycling process, energy source, location, and underlying system boundaries.

The values quoted refer to the production stage of granulate manufacturing (“cradle-to-gate”) and do not include transport, further processing, or end-of-life phases.

Source: Textile Exchange (2023) – Materials Market Report 2023

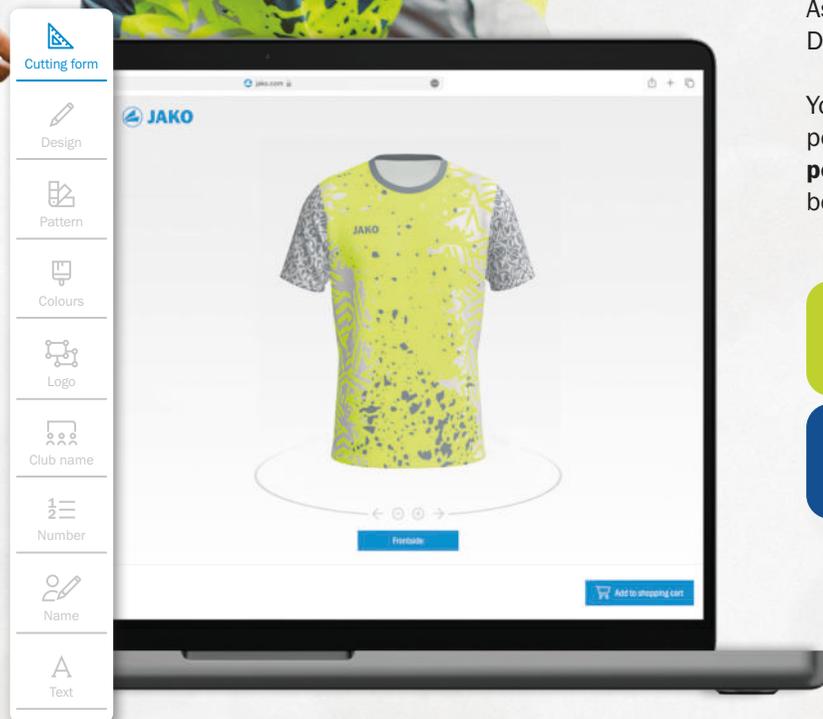

TEAM CREATOR

YOUR TEAM – YOUR DESIGN

As individual as your team. With our **3D configurator** you can let your creativity flow. Design your team outfit according to your wishes.

You can choose from numerous existing **design options** or create your own personal design. The wide **range of colours, different cuts and patterns**, as well as **personalization with logos and names** round off your design. The articles will then be produced directly and delivered within 8 weeks.

TEXTIL CARE

Washing and drying textiles properly is an essential part of textile care. In order to enjoy our textiles for a long time, you should pay attention to the care symbols on the clothing label. With tips and tricks from **clevercare.info**, you will learn how to care for textiles sustainably.

CUSTOMIZATION

A uniform customization creates a sense of community. The logo makes a team outfit complete, individual and communicates the identity impressively to the public. There is a suitable customization method for every requirement and article. For the optimal presentation of the motifs and the perfect appearance.

FUNCTION

On the pitch, in the gym or on long working days: the functional properties of our textiles help you to make a good impression in any situation. Pay attention to the corresponding functional buttons **KEEP DRY** and **STOP WATER** on the JAKO products.

Sarah is 175 cm - Size 36
 Felix is 132 cm - Size 128

The size charts of our CORPORATE TEAMWEAR serve as a guide and orientation.
 We recommend sampling the articles at one of our local qualified specialist retail partners.

For the selection of the perfect size, it should be taken into account that the articles
 of our CORPORATE TEAMWEAR are cut a little wider than our team teamsport articles.

WE ARE TEAM
